RANCHI - THE CITY

Ranchi, also known as the City of Waterfalls, is the capital of the Indian state of Jharkhand. It has been selected as one of the hundred Indian cities to be developed as a smart city under Smart Cities Mission. In the British Raj, the city was the summer capital of Bihar, because of

its cold climate during the winter season. Ranchi is also one of the oldest cities in Jharkhand.

Today, Ranchi has been climbing up the progressive curve in terms of infrastructure and industrial growth marked by many shopping malls, fast food joints, and multiplexes. Ranchi is rapidly growing its economy, and certain parks, special economic zones, and industrial areas are being developed.

The city witnessed a sudden surge in population after the declaration of the new state of Jharkhand in 2000 owing to the rising employment opportunities and the opening of numerous regional and state-level offices, banks, and FMCG companies. As per a study done by ASSOCHAM in late 2010, Ranchi was one of the highest employment-generating Tier-III cities in India.
